XpresSpa and Nordic Edge Introduce Cutting-Edge Cryotherapy Treatments at Dallas Fort Worth International Airport

February 27, 2018

NEW YORK, Feb. 27, 2018 (GLOBE NEWSWIRE) -- XpresSpa Group Inc. (Nasdaq:XSPA), a health and wellness holding company, today announced that its wholly owned subsidiary, XpresSpa, will introduce XpresCryo facials, localized cryotherapy and compression therapy at its store in Terminal A of Dallas Fort Worth International Airport (DFW).

Through its partnership with Nordic Edge (previously Nordic Cryotherapy), a leader in the cryotherapy space, XpresSpa will launch the rollout of XpresCryo facials, localized cryotherapy and compression therapy in XpresSpa's existing location in Terminal A of DFW starting today. This is the second location for this strategic partnership; XpresSpa and Nordic Edge also partner to provide XpresCryo facials, localized cryotherapy, and compression therapy at one of XpresSpa's three stores in Terminal 4 of John F. Kennedy International Airport in New York City.

The logo for Nordic Edge, featuring the words "NORDIC EDGE" in a bold, black, sans-serif font, enclosed within a thin black rectangular border.

"We are excited to build on our partnership with Nordic Edge to bring these innovative services to DFW, one of the country's most important airports. Cryotherapy treatment is an advanced technique for busy consumers to heal and renew on-the-go," said Andrew Perلمان, CEO of XpresSpa. "XpresSpa's mission as a recognized leader in the health and wellness industry is to meet the needs of today's health-conscious and often stressed travelers."

For instance, in only 10 minutes, the XpresCryo facial procedure improves skin tone by enhancing and rejuvenating the skin for a bright and fresh glow. It is administered by a trained cryogenic technician, who uses handheld equipment to administer the vaporized nitrogen cryotherapy treatment (reaching -250° Fahrenheit).

"Nordic Edge is thrilled to be partnering again with XpresSpa on a second location – this time in the Dallas Fort Worth International Airport. This strategic partnership allows Nordic Edge to bring its cutting-edge treatments, including XpresCryo facials, localized cryotherapy and compression therapy to the millions of passengers who travel through DFW, making their experience more comfortable. Weary travelers can take advantage of these safe, quick and effective treatments to improve blood circulation, reduce their aches and pain, and feel rejuvenated before and after their flights," said Dr. Marie O'Connor, CEO and Founder of Nordic Edge.
